Informed Financial Consent for patients with Medicare and Private Health Cover:

Gynaecology

This document contains information about the cost of your health care with me, Dr Liza Fowler and my team at Wellbeing of Women Centre. We undertake to provide you with professional care and to provide you with all information and guidance necessary to make the right decisions about your health

The fees you pay enables us to provide this service and it also contributes to a very large indemnity fee compulsory for all Gynaecology practices.

The consultation and office procedure fees are payable in full following your visit via cash/card. We will submit to Medicare who will pay your rebate directly to you.

For inpatient services, I am a no Gap provider, so there will be no extra out of pocket expense for my services in hospital.

These fees do not cover other services provided by for example the Anaesthetist, Pathology, Radiology or in office procedures.

MBS code	Service	Fee	Medicare Rebate
104	New Gynaecology appointment	240	72.75
